At today's WINSIG we went over the following applications and did some Q&A along the way.

doPDFv7.1.340

doPDF is a free PDF converter for both personal and commercial use. Using doPDF you can create searchable PDF files by selecting the "Print" command from virtually any application. With one click you can convert your [Microsoft](#) Excel, Word or PowerPoint documents or your emails and favorite web sites to PDF files.

doPDF installs itself as a virtual printer driver so after a successful installation will appear in your Printers and Faxes list. To create PDF files, you just have to print your documents to the doPDF pdf converter. Open a document (with [Microsoft Word](#), WordPad, NotePad or any other software), choose Print and select doPDF. It will ask you where to save the PDF file and when finished, the PDF file will be automatically opened in your default PDF viewer.

Vista Start Menu

Vista Start Menu is the convenient alternative to the plain Start menu you find in Windows XP and Windows Vista. The program uses your cognitive abilities (visual memory, reflexes, etc.); however, while it is easily understandable for beginners, it is also highly efficient for experienced users.
