Belarc Advisor – Free http://www.belarc.com/free_download.html

The [Belarc Advisor](#) builds a detailed profile of your installed software and hardware, missing Microsoft hotfixes, anti-virus status, [CIS](#) (Center for Internet Security) benchmarks, and displays the results in your Web browser. All of your PC profile information is kept private on your PC and is not sent to any web server. Runs on Windows 7, 2008 R2, Vista, 2008, 2003, XP, 2000, NT 4, Me, 98, and 95. Both 32-bit and 64-bit Windows is supported.

BackupXpress - <http://backupxpress-pro.com-download.net/>

BackupXpress is your professional file backup software. You can use BackupXpress to compress files to an archive or copy them to different places in a network or workgroup. The software is easy to use and fulfills the needs of homeusers as well as businesses. Backup archives, created by BackupXpress, are compatible to the zip-standard and can be viewed or extracted with any common zip-extractor (like winzip)

SpyShelter anti-KeyLogger <http://spyshelter.com/download.html>

Real time powerful protection from trojans, rootkits and other malware attacks.

World's most efficient anti-monitoring software against known and unknown custom compiled spy programs.

Adsen FavIcon Editor <http://www.adsensoftware.com/favicon/>

Adsen FavIcon is a simple favicon editor that lets people make a favicon ico for their website, which shows up in IE's favorites. It can use either bmp or jpg files, and will convert them to ico format using the size and color quality you choose. Not only can you create fav icons, but it can also be used for creating icons for programs. Adsen FavIcon comes with notes on what settings to use for making fav icons and how to install them. Create your favicon ico with Adsen Favicon.
