

PERSONAL TECHNOLOGY IN TODAY'S WORLD

Interested in learning more about how to make full use of your personal technology, such as:

- Computers
- Notebooks
- Tablets
- Smart phones
- Software/applications

Have questions about a specific software program or device but don't want to pay a commercial vendor for the answer?

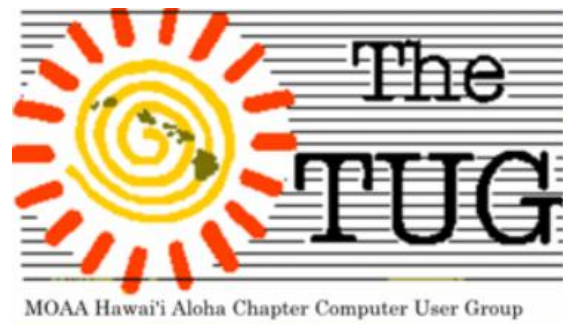

Join us, the MOAA Technology Club, the first Saturday of each month from 9:00-11:00AM for two hours of personal technology information and assistance. We meet at the Oahu Veterans' Center (OVC) in Foster village – across from Radford High School. There is lots of free parking.

We have been a well-established personal computer users' group for 30 years. Our current membership includes those with varying degrees of expertise in the personal technology world, and someone should be able to answer any questions you may have – for FREE!

A short program starts the meeting, which then leads into the Q&A portion. At the end of each meeting we have a door-prize drawing. (While you don't have to be a member to attend the meeting, only members are eligible for the drawing.) Our membership fee is \$20 per calendar year, which includes the monthly newsletter.

Visit www.the-tug.org for complete details and driving directions to the OVC. While on-line, check out the Newsletter section to read about previous meetings and topics covered.

Our next meeting is at 9:00AM on Saturday, November 4th. Come join us!
